PILOT

BUILT FOR THE DREAMDEX PERPS BOUNTY · MVP

YOUR AGENT WRITES THE ORDER. PILOT HOLDS IT SHORT.

An MCP server between your agent and dreamDEX perps on the Somnia testnet.

HANDING AN AGENT A TRADING KEY IS ALL OR NOTHING.

CALLSIGN	MARKET	SIZE	SENT
AGENT	any	any	immediately

The SDK + a key: any order the exchange accepts.

THE PROBLEM, FROM A REAL RUN

ASKED FOR A SHORT. CODEX PLANNED $40.11. YOU ALLOW $25.

WHY NOT JUST THE SDK

THE CAP IS ON THE POSITION, NOT THE ORDER.

SMALL ORDERS CANNOT STACK

open 0.2 SOL planned at $20.54

add ~~0.1 SOL~~ leaves $30.80 > $25

LIMITS NO TOOL CAN EDIT

Read-only to pilot.

CLOSING IS NEVER BLOCKED

Not even by an invalid policy file.
